

LO·SO PREP™

The very low sodium bowel cleansing system

For patient satisfaction and compliance:

- Less than 35 mg of sodium—significantly lower than PEG or sodium phosphate preps
- Natural citrus flavor and low fluid volume help to ensure compliance
- Easy to store dispense from your office

LO^{SO} PREP™

The very low sodium bowel cleansing system

Take a new look at preparing patients for gastrointestinal procedures and raise your expectations regarding patient compliance. It's the only prep that's low in sodium, low in sugar, and naturally pleasant to the taste.

VERY LOW IN SODIUM

Other preps contain as much as 2,500, 5,000, and even 10,000 mg of sodium per dose. At less than 35 mg of sodium, LoSo Prep meets U.S. Government requirements for "very low sodium".

LOW IN VOLUME

Unlike preps that require patients to drink several quarts of laxative, a single 8-ounce dose of LoSo Prep's effervescent solution provides safe, gentle laxation when used as part of the LoSo Prep bowel cleansing system.

PLEASANT TO THE TASTE

With its natural effervescence and pleasant citrus flavor, there's no need for artificial flavorings in LoSo Prep.

EASY TO STORE

The LoSo Prep kit is small and stores easily—giving you the option of dispensing it right from your office.

HELPS ENSURE COMPLIANCE

Doesn't it stand to reason, the easier the prep the more compliant the patient? LoSo Prep helps eliminate one of the primary patient complaints regarding colon procedures—difficult prepping.

Try LoSo Prep in your practice and see how effective prepping can be! For complete patient instructions and samples, call Customer Solutions at 1-800-544-4624.

Each LoSo Prep kit contains:

- One 1.3-ounce (37.9 g) packet of magnesium carbonate, citric acid, and potassium citrate effervescent powder for oral solution, equivalent to 18.0 g magnesium citrate
- Four bisacodyl tablets (enteric coated) USP, 5 mg each
- One bisacodyl suppository USP, 10 mg
